The Balance Plus is a playground classic, that offers balancing challenges. The rope has the function as playground glue, connecting activities. It can also function as a point for a parent or caregiver to stand, to support or spot a child. In need of a point from which to observe play. When children navigate across the Balance Plus, they train their balance and dexterity, which is a fundamental skill, that is important for many activities in life. The sense of balance in children. The sense of balance is fundamental for all other senses. It makes it possible to run, to stand, concentrate and relax. It gives children the self-confidence that they can manage the world and adjust, when they are at the edge of loosing their balance. The combination of the Balance Crawling Pyramid invites a break and socialising. This is important for children's social-emotional skills, that are important for instance when making friends. Immersively, which is a fundamental skill, that is important for many activities in life. The sense of balance for instance makes it possible for children to stand and concentrate. When children navigate across the Balance Plus, children will negotiate and turn-take to pass each other. This trains important social-emotional skills, that are important for instance
